

# Diva ISDN USB

The Diva ISDN USB adapter combines USB and digital ISDN technology, giving high-speed access to the Internet or remote intranet.

Its compact and elegant design allows you to hook it up easily to either your desktop or notebook PC. It is the perfect adapter for both home and business users who need ISDN connectivity.

Plug and Play installation and Configuration Wizards ensure that the user is up and running in minutes – just plug one end of the device into the USB port and the other end into the ISDN line.

The Diva ISDN USB takes power from the USB line, so there is no heavy power supply to carry around.

It supports the industry-standard CAPI interface, so it works seamlessly with a wide range of third party ISDN applications: Fax, file transfer, bulletin board access and even voice mail software.

The Diva ISDN USB supports Windows® 98 and Windows® 2000 as well as Windows® Millennium Edition.

## *USB ISDN Adapter for High Speed Internet Access*

### Key Benefits

#### Flexibility & Cost-Effectiveness

##### Cost Efficient

##### A Fully-Integrated Solution

The Diva ISDN USB is ideal for Internet access and remote intranet access under Windows® 98, Windows® 2000 and Windows® Millennium Edition. It supports Microsoft® Dial-up Networking and includes Microsoft Internet Explorer and software for voice and fax over IP, equipping the user with a multitude of communication options.

##### Full ISDN Functionality

Supports Multilink PPP, combining two 64 kbps ISDN B-channels to provide a single high speed 128 kbps pipe; and CAPI interface, for Euro File Transfer and other common applications.

##### Wide Application Support

Includes RVS-COM Lite software suite, which provides softfax and digital answering machine facilities, and a number of other features that support a wide range of Windows® applications.

##### Easy to Manage

##### Setup Wizard

A Setup Wizard helps users install the software in just 3 simple steps.

##### Plug and Play

Because the Diva ISDN USB is an external device, there's no need to open up the PC. And because it is truly Plug and Play, your PC will automatically detect its presence, and configure the correct drivers.

##### Intuitive Diagnostic Tools

In the unlikely event of a problem, the Diva ISDN USB's diagnostic tools provide easy-to-understand information about the adapter's status.

##### Diva Monitor and LEDs

The Diva ISDN USB includes the Diva Monitor and 3 LEDs that inform users of the B-channel status, and the status of the physical connections to the PC and the ISDN jack.

### Additional Highlights

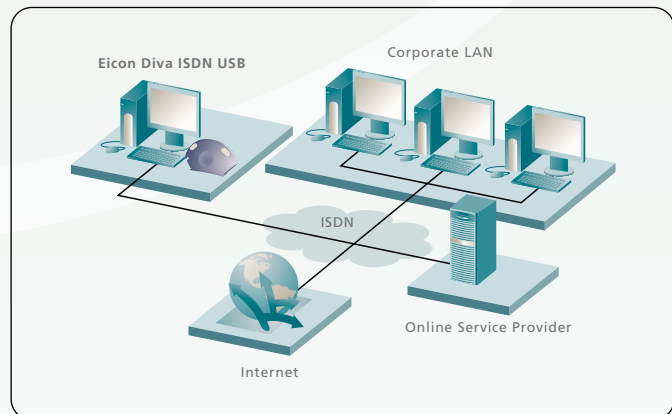

- Plug and Play Installation • Hot Pluggable • ISDN line monitor in system tray • Microsoft Internet Explorer (web browser)
- Microsoft NetMeeting (videoconferencing) • Net2Phone (Voice over IP) • .comfax (Fax over IP)
- Bonus software: RVS-COM Lite, providing Fax Group 4, Fax Group 3 (Softfax), Euro File Transfer, Softmodem and digital answering machine capabilities.

### Technical Specifications

<b>Operating Systems</b>	Windows® 98, Windows® 2000 Professional, Windows® Millennium Edition
<b>Bus Type</b>	USB 1.1 Compliant
<b>ISDN Port and Interface</b>	BRI (2 B-channels + 1 D-channel), S/T (S <sub>o</sub> ) Switched & Permanent
<b>ISDN Connection Type</b>	PPP (MLPPP), PAP/CHAP,MS-CHAP, MPPC, HDLC, X.75, X.25/ISO 8208/X.31, T.70/T.90, V.120; TCP/IP, IPX, NetBEUI Support
<b>B-Channel Protocols</b>	EDSS-1 (Euro-ISDN), NI-1 (North America), 5ESS (North America), 1TR6 (Germany), INS Net 64 (Japan), VN4 (France), CTI (Belgium), TPH 1962 (Australia)
<b>D-Channel Protocols</b>	CAPI 2.0, COM-Port, WAN Miniport
<b>Application Interface</b>	128 kbps (2 x 64 kbps) Data Access Speeds
