hp top value

monthly information for the it professional | issue 10 - january 2002

top story

what stability means

Many of you know HP PC's for their superb quality, manageability and stability. Stability in this case stands for HP's commitment to corporate customers that the components used to manufacture new PC's will not change significantly. Creating a new software image is time-consuming, and being able to manage a large number of PC's with the same image brings considerable savings in IT-costs throughout the lifetime of the PC (reduced TCO).

a choice

The downside of stability is that it is often not possible to integrate better performing or lower priced components into the PC, because they might affect the customer's software image. So now we're offering customers a choice.

pay less for the latest

The advantages of accepting less stability include that HP can negotiate better prices from component suppliers for Special Edition PC's AND is able to offer the pick of the rapidly evolving marketplace in terms of PC components. That's why Special Edition PC's cost less.

warranty

Again because we don't want customers to pay for something they might not need, warranty on Special Editions is now one year on-site, similar to what competitors offer today. HP SupportPacks allow upgrades to the warranty level desired by the customer. HP SupportPack can be purchased up to six months following the PC purchase.

how and where to buy

Special Edition PC's will be offered by wholesalers in TopValue and you can recognise them by the letters "se" in the name, and a product number ending in "PxxxxT.

Customers who still need stability often also require customised configurations, so we offer stable PC's as A-models, outside of TopValue. These product numbers end in "PxxxxA" and can be found on HP's corporate price list.

LaserJet & DesignJet trade-in program extended to end of January.

HP continues to offer exceptional buy-back prices for old printers, whatever the manufacturer or technology (ink, laser,thermal,...) when a new LaserJet printer is bought. Starting from Laserlet 4100. For information and quotes, surf to www.hp.be

FREE carry case and battery

Last month for Omnibooks with FREE carry shipped. All models eligible, with the exception of special bids.

case and battery. This month is resellers' last chance to claim a FREE carrying case and second battery with any OmniBook
