ViewSonic®
VE150m LCD Display

ViewPanel® Series

- Full 15.0" viewable screen

- 1024 x 768 true resolution

- OnView® controls including ViewMatch®
  All screen adjustments are made via an on-screen menu using simple controls. ViewMatch allows the users to adjust the colour temperature and individual colour intensity for screen-to-print matching.

- Very high brightness – 250nits

- Very high contrast – 300:1

- ø-Touch™ auto tune
  Automatically provides the best image by monitoring the signals from the computer and optimising the monitor settings.

- Slim 1.9" profile (panel only)

- Bezel-integrated speakers

- Anti-reflective coating
  Minimises glare and reflections, reducing eyestrain and allowing for optimal viewing comfort.

- OSD Key lock and power lock
  The key lock function locks the menu settings to protect from accidental or unwanted changes. The power lock prevents the monitor from being inadvertently switched off.

15" TFT Multimedia LCD Colour Display

The VE150m multimedia ViewPanel produces sharp, crisp text and images with a high contrast ratio of 300:1 and no screen flicker. The first 15" flat-panel LCD display to offer a fully automatic, zero-touch, auto-tune feature, the VE150m self corrects for video card anomalies like drift and non-VESA video timing, delivering the best possible image in all environments. At only 1.9-inches thin, this display is perfect for government, estate agents or medical offices and financial industries where space is at a premium. And the built-in speakers sound great, even when the display is wall mounted. The ViewSonic VE150m ViewPanel is a solid choice for users who want a lightweight, reliable, value-priced LCD display.
