Authorization Requirements

There are no Authorization Requirements to purchase the CA licensing products distributed through Ingram Micro except for the MSPP program and Onsite programs. Please contact the desk for information.

Ordering Requirements

Please be sure to provide the following information when placing a CA Licensing order:

1. PO number

2. End-user agency/organization name
3. End-user contact name - first and last name required
4. End-user contact phone number
5. End-user contact email address (email domain must match business name)
6. Note if the reseller or end user is the receive the license certificate and/or the media from CA
7. Clearly state the skus needed, along with the pricing, and quantities needed for each line item

Product Delivery

CA's normal processing time on orders is 2-3 business days. Licenses are delivered via email and media will be shipped out for all non-renewal orders for eligible products.

Renewals

Renewals must be purchased within 30 days of the renewal date of the license. Upgrade licenses must be purchased if beyond the 30 day renewal period.

Pricing Programs

CA Open License Program (OLP) is an easy-to-use, cost-effective purchasing program designed to meet the needs of businesses of all sizes. It reduces the costs associated with acquiring, implementing and maintaining CA software. OLP offers streamlined purchasing and centralized license management. With OLP, it is even easier than ever to benefit from licensing, especially now that no minimum point purchase is required.

CA Government License Program (GLP) offers government agencies, academic institutions and non-profit organizations substantial discounts, without the obligation of making volume purchases. GLP's streamlined process offers the quickest, easiest way to purchase licensing for large environments by reducing paperwork and administrative headaches associated with box product purchases.

Furthermore, with no minimum purchase requirements, cost of software ownership is reduced and redundancy is avoided.
