## McAfee Total Access

**End Date- Friday, December 21, 2012**

Extend the value of McAfee Security Connected to your time- and budget-constrained customers by giving them access to comprehensive, advanced endpoint and server security for an amazingly low price.

And because these solutions are all part of a unified platform and managed from a central console, deployment and management take much less time too. Dream no longer about the day you'll have the depth of security you really need and look into this incredible offer before it's too late!

This first-of-its-kind, limited time offer has two comprehensive options:

*McAfee Total Access for Endpoints* – Business Edition provides anti-malware and web protection, network access control, security for mobile devices and virtualized desktops, host intrusion prevention, policy auditing, device control, endpoint encryption, and more.

*McAfee Total Access for Servers* – Business Edition provides anti-malware protection, host intrusion prevention, database security, application control/whitelisting, virtual server protection, and more.

You can assure your customers that no other security vendor offers this breadth of advanced protection for such a low price. With McAfee Total Access and your own deployment or consulting services, they gain the flexibility to deploy what they need, where they need it.

And that's not all, for qualifying McAfee SecurityAlliance Partners, you can earn more with McAfee Rewards, Rebates, and Incumbency Advantage.

*McAfee Total Access for Endpoints:*

McAfee Endpoint Protection-Advanced Suite

McAfee VirusScan Enterprise for Linux

McAfee VirusScan for MAC

McAfee MOVE Anti-Virus for Virtual Desktops (VDI)
