VMware Program Overview

As the industry-leading virtualization software company, VMware empowers organizations to innovate and thrive by streamlining IT operations. By virtualizing infrastructure—from the data center to the cloud to mobile devices—VMware enables IT to deliver services from any device, anytime, anywhere.

VMware Products – We don't just sell vSphere!!

vSphere 5.5 - offers the world's leading virtualization platform for building cloud infrastructures.

vSphere with Operations Management - offers the world's leading virtualization platform with insight to IT capacity and performance.

vSphere Storage Appliance - is a software-based shared storage solution that enables high availability and automation in vSphere without shared storage hardware.

vSphere Data Protection Advanced - provides proven, efficient and easy-to-use backup and recovery for virtual machines and mission-critical applications.

vCenter Site Recovery Manager (SRM) - is a disaster recovery offering that provides automated orchestration and non-disruptive testing for virtualized applications.

vCloud Suite - lets you build and run a vSphere-based private cloud that delivers cloud service provider economics at scale, application provisioning in minutes, and automated operations management.

vCenter Server - provides a centralized platform for managing your VMware vSphere® environments. Automate and deliver a virtual infrastructure with confidence.

Horizon Suite - the platform for workforce mobility connects end users to their data and applications on any device without sacrificing IT security and control.

Horizon View - is a virtual desktop infrastructure solution that simplifies desktop management and provides users with what they need, when they need it.

Horizon Mirage - provides centralized image management for Windows desktops with enhanced levels of control, zero-touch maintenance and backup.

Horizon Workspace - provides an easy way to access apps and files on any device, while enabling IT to centrally deliver, manage and secure these assets.

Workstation - is recognized for its broad operating system support, rich user experience, a comprehensive feature set and high performance. It is designed for professionals that rely on virtual machines to get their job done.

Fusion Professional - is designed for IT professionals who want to allow corporate users to run Windows programs on Macs, and for users who are looking for advanced functionalities to run Windows virtual machines.

vCenter Operations Manager - is the key component of the vCenter Operations Management Suite. It provides comprehensive visibility and insights into the performance, capacity and health of your infrastructure.

vCenter Operations Management Suite - provides automated operations management using patented analytics and an integrated approach to performance, capacity and configuration management.

vCenter Configuration Manager - automates configuration and compliance management across your virtual, physical and cloud environments, assessing them for operational and security compliance.

vCenter Log Insight - delivers automated log management through aggregation, analytics and search, enabling operational intelligence and enterprise-wide visibility in dynamic hybrid cloud environments.

vCloud Director - provisions software-defined data center services as virtual data centers that provide virtualized compute, networking, storage and security.

vCloud Automation Center - enables the agility your business needs with the control IT requires through a flexible solution for automating the delivery of IT services.

IT Business Management Suite - provides transparency into the cost, quality and value of IT services and cloud environments to enable fact-based sourcing decisions.

Maintenance/Support

Maintenance is required with all license purchases except Workstation and Fusion. Maintenance provides tech support and product updates. It is available as production (24X7) or basic (12X5 - local time) levels. Both levels have a 1 or 3 year option.

Media

Media is provided free for all new licenses purchases. It is downloadable in link provided in email confirmations.

Authorization Requirements

VMware restricts the sale of product to VMware Partners only. VMware has different levels of authorization. This affects the products that can be purchased based off a reseller's authorization level.

Registered Partner's: This level is able to purchase: Workstation, Fusion, Essentials, Essentials Plus, Services and Renewals **ONLY**. To purchase, the reseller must have a VMware partner ID. If you need a partner ID, please see the below section on how to obtain.

Professional: This level of authorization is able to purchase all VMware products. Deal Registration is available to this level but do not receive any additional discounts. This level cannot utilize the VPP program. You must be at least the professional level and have the Academic Specialization to purchase ACAD part numbers.

Enterprise: This level can purchase any VMware product. Deal Registration is available and offers an additional 10% off licenses to configurations that meet the required qualifications (\$6K MSRP in licenses). This level can also utilize the VMware VPP Program.

Premier: This level can purchase any VMware product. Deal Registration is available and offers an additional 10% off licenses to configurations that meet the required qualifications. This level can also utilize the VMware VPP Program.

VMware Volume Purchasing Program (VPP)

The accumulative VMware Volume Purchasing Program (VPP) is designed to reward end-users when purchasing VMware products in volume. VPP provides incremental, tier-based discounts when end-users place qualifying purchases through eligible VMware Partners

Discount Levels:

Level	Points	Discount
1	250 – 599	4%
2	600 - 999	6%
3	1,000 – 1,749	9%
4	1,750 +	12%

VMware Partner ID Policy

VMware requires Ingram Micro to submit all orders with the reseller's VMware partner ID number. If you do not have a VMware partner ID and an order is submitted to our desk, the purchase order cannot be processed until you obtain a VMware partner ID number.

To obtain a Partner ID:

Visit the following link: <http://www.vmware.com/partners/solution-provider.html>

Click on "Apply"

Fill out the form and submit it to obtain a partner ID.

My VMware

My VMware is a tool that simplifies and streamlines how Resellers manage their customer's license keys and support agreements. As of Monday, April 16th 2012, Entitlement Account Numbers (EA Numbers) will be a VMware requirement for all quotes and orders. For more information, please visit the link below.

VMware Academic Licensing Program

VMware provides Academic pricing under the following guidelines:

1. A student or employee of an Educational Institution that has an .edu email address can be considered for VMware academic pricing.

If .edu is lacking from the email domain, the Institutions name should be clearly recognizable as academic or the name itself should be included in the email domain or some other recognizable abbreviation denoting the education affiliation (IE: sjusd.k12.ca.us) or a copy of a student ID should be presented at the time of purchase.

Training Centers that operate as a business for profit as well as individual students, teachers, lecturers, researchers or tutors affiliated with that training center are not eligible for academic pricing.

2. The use of the licenses must be for classroom purposes and education.

To summarize, VMware's academic pricing policy is geared for academic environments exclusively. Governmental or state agencies that are in the education field do not qualify for this pricing.
