Linux compatible

66 MHz Processor

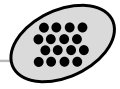

USB & Parallel Ports

Compact, professional laser quality output at an affordable price.

When you're ready for professional results

600 x 600dpi

The Lexmark E210 is the perfect choice for affordable laser quality in your home or small office. With crisp 600 x 600 dpi laser output, the E210 will give you professional results with the quality you'd expect from a Lexmark laser printer.

Connect to what you want, when you want to

USB & Parallel Ports

With both USB and parallel ports standard on the Lexmark E210, you're ready to connect easily and quickly in the way that suits you. And, because both ports are active simultaneously, you can even connect two computers to the same printer without any additional hardware.

Exceptional performance and the speed you need

12 PPM

Harnessing the power of your PC, the E210 delivers your first page in less than 13 seconds and races through 12 pages a minute, providing the speed you need in a compact laser printer.

The power to keep up with you

66MHz Processor

The Lexmark E210 comes equipped to keep pace with you and all your printing needs. Carrying an impressive 66MHz RISC processor, the E210 will handle your most complex documents with ease. And with 4MB RAM on-board, you'll be back to work in no time.

Easy to use and maintain

easy to use

With an almost flat paper path, your new E210 will speed through your work on a wide variety of media. Plain paper, card-stock, envelopes and transparencies will all feed through the E210 with ease.

And, when it comes time to change your toner cartridge, you'll love the E210's one-piece, clean hands installation. Just slide the new cartridge into place, and you're up and printing in seconds. No mess, no fuss.
